The following is an examiner's statement of reasons for allowance: The prior art of record does not teach an adaptive frequency shift key decoding method that comprises, inter alia, a step of comparing pair of a plurality of sample points being symmetrical to a central point; obtaining a sample correcting number when the value of the pair is different, comparing a central value to one of the pair of sample points previously compared to obtain a sample correcting direction, selecting sample points based on sample correcting number and sample correcting direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
